## FLIPPING BOOK 3D FOR CHM

Build Cool 3D page-flip eBook with CHM

## About Flipping Book 3D FOR CHM

Flipping Book 3D FOR CHM is a converter tool to transfer your common, compiled CHM files into cool, wonderful digital eBooks with real 3D page turning effect. You will be able to turn the created eBook with stunning 3D Flash Tilt effect, like reading real books or magazines, read from any angle as you want. The amazing program also provides you dozens of settings for you to customize your own style digital brochures or magazines, such as different language, different share channel, unique book logo, etc.

Note: This product is distributed on a "Try before-you-buy" basis. All features described in this documentation are enabled. The registered version doesn't insert a watermark in your generated page-flipping eBooks.

## Product features

1. Convert CHM to Flash eBook with 3D page turning effect.
2. Define quality and size for imported CHM pages.
3. Apply a pre-designed template.
4. Export and save settings or projects for future uses.
5. Define book Title.
6. Enable Auto Flip with setting Flip Interval.
7. Set Flash buttons display language.
8. Different kinds of render engine for choose, to avoid distortion for some special CHM files.
9. Set option to use same user names for sharing on Twitter, FaceBook, Digg.
10. Input Presenter information such as name, website address, Email and details info to show in About Window.
11. Choose color for Tool Bar.
12. Define logo to show on Tool Bar.
13. Pre-set tilt angle while opening the eBook.
14. Set background with pure/gradient color or image directly.
15. Output to different formats: HTML, ZIP, EXE and Burn to CD.
  - HTML allows you to upload to a website to be viewed online (with title, keywords and other metadata defined).
  - EXE (with setting title, icon and open window size) and Zip allow you to send to your user by email to be viewed on their computer.
  - Burn to CD allows you to burn to disk so that you can send your user physical media for viewing on their computer.

## 3D Digital eBook features

With the page-flipping ebook you have created, your user will be able to:

1. Click Page frame bar or navigational buttons to turn pages.
2. Input password to unlock encrypted pages.
3. View with important pages pre-loaded to open quickly, no need to wait for all pages to be loaded.
4. Double-click or click zoom in/out button to zoom in or zoom out pages.
5. Manually define Tilt Angle to view eBook pages.
6. Flip pages automatically.
7. Turn page-turning sound on/off.
8. View eBook detail information.
9. Share eBook URL via Facebook, Twitter, Digg, etc.
10. Print out the whole eBook or a selected range of pages.
11. View page-flipping eBook in full screen.
12. Open in the Browser to a specific page by adding a page index to your URL.

E.G. [www.yourdomain.com/index.html?p=4](http://www.yourdomain.com/index.html?p=4).

In this part, you can "Import CHM", "Save Project", "Open Project":

# Flipping Book 3D for CHM Utility

## User Document

### (1). Import CHM

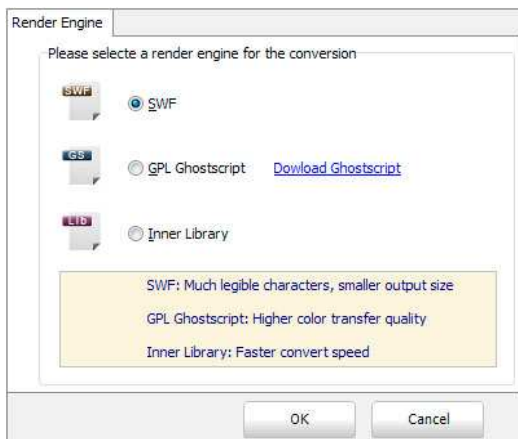

Click "Import CHM" icon to choose CHM file from your computer.

A. You can define Page Quality and Size to convert your CHM file:

B. Click "Application" button  to choose render engine for importing your CHM file.

Flipping Book 3D FOR CHM provides 3 Different kinds of render engine for choose to avoid distortion for some special CHM files:

SWF: Much legible characters, smaller output size

GPL Ghostscript: Higher color transfer quality

Inner Library: Faster convert speed

(Change option when CHM imported failed)

# Flipping Book 3D for CHM Utility

## User Document

### (2). Project

Click "Save Project" to save the imported files and current settings as a project file, and when you want to modify or complete the project, just click "Open Project" to edit the stored project directly.

## 2. Publishing Part

Click "Publish for Flipbook 3D" to enter into publishing interface as below image shows:

The 'Output' dialog box contains the following fields and controls:

- Output type:** Three radio buttons with icons for \*.html (selected), \*.zip, and \*.exe.
- Path:** 'Output Folder' text box with 'C:\Users\Administrator\Desktop\2', 'Browse...' button, and 'Open' button. 'File Name' text box with 'DemoBook' and '.html' extension.
- Html Title:** 'HTML Title' text box with 'DemoBook' and an 'Advanced' button.
- Burn to CD:** A checked checkbox, a 'CD Writer' dropdown menu showing '0:1:0,G: PLDS DVD-ROM DH-16D5S VD15', and a 'Disc title' text box.
- Buttons:** 'Convert' and 'Cancel' buttons at the bottom right.

### Output types:

#### (1). HTML

This output type is for uploading created page-flipping ebook onto websites. You can define HTML Title and other properties by clicking "Advanced" button:

The 'Html Title' section shows a text box containing 'DemoBook' and an 'Advanced' button to its right.

Set Keywords and Description in the below interface:

# Flipping Book 3D for CHM Utility

## User Document

HTML Meta Settings

Title: DemoBook

Keywords: 3d, eBook, Flash, page-flipping, tilt, any angle

Description: This DemoBook is to show you a digital book with adding flash page-turnin

OK Cancel

### (2). ZIP

This output type is for compressing the created files into an integral ZIP package which can be sending out as attachment directly. You can also define HTML Advanced Settings by clicking "Advanced" icon. Your recipients just need to uncompress the ZIP file and then they can view the HTML DemoBook instantly:

### (3). EXE

This type is for outputting 3D flipbook as a single executive file, easy storing and easy viewing:

You can also define Icon and Opening Window Size in Advanced Settings:

# Flipping Book 3D for CHM Utility

## User Document

A screenshot of the 'Exe Window Info' dialog box. It has a title bar 'Exe Window Info'. Under 'Caption:', there is a text box containing 'Demo'. Under 'Icon:', there is a 3D icon, a '...' button, and a 'Default' button. Under 'Window Size Option', there are three radio buttons: 'Maximized', 'Custom Size' (which is selected), and 'Full Screen'. To the right of 'Custom Size' are two text boxes: 'Width:' with '800' and 'Height:' with '600'. At the bottom, there are 'OK' and 'Cancel' buttons.

### (4). Burn to CD

You can also check "Social Share->Use same username" to insert usernames of different share channels:

Use same username

Username:

Username:

Username:

OK Cancel

### 5. Language Part

If you want to use another display language for your 3D flipbook, you can click "Flash Language" to enter into the Language Settings interface as below shows:

You can new or edit a language for the pdf to flipbook 3D.  
The Labeled column below is the string that will be displayed in the flash.  
The language will be list in the flash template settings

Language Name: English

Language Settings

Label	Labeled
First Button	First page
Next Page Button	Next page
Last button	Last page
Previous Page Button	Previous page
Enable FullScreen Button	Full screen
Disable FullScreen Button	Exit full screen
Help Button	Help
Thumbnails Caption	Show Thumbnails
Zoom In button	Zoom in
Zoom Out button	Zoom out

Edit

OK Cancel

#### Panel Description:

As the tips explaining, the "Labeled" column lists the buttons and instructions on Flash books in defined language, and the program provides you two different languages for you to use: English and Chinese.

# Flipping Book 3D for CHM Utility

## User Document

You can also add other language for your own uses:

1. Click the button  and define name for the new language:

Click "OK" to save the new language in the list;

2. Choose the first label and click "Edit" button , define new language text in "Labeled" box, then click "Save And Edit Next" (Alt+S):

3. At last, you can get all Labels translated into your new language.

You can delete unwanted language: 

Or save your edited new language file as XML or TXT file: 

Load language file saving before for current using: 

At last, click  icon to apply the settings.

### III. Page Layout Panel

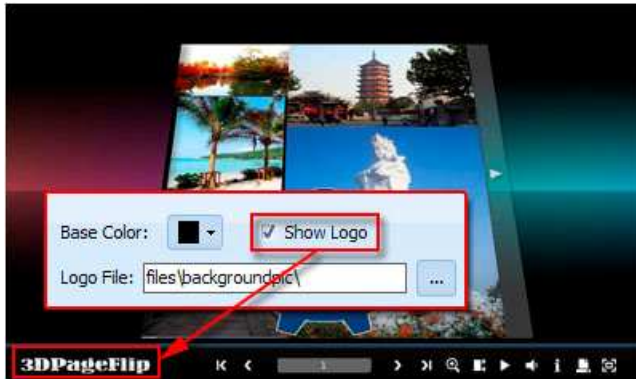

# Flipping Book 3D for CHM Utility

## User Document

---

### 1. Tool Bar and Logo Part

You can define the "Base Color" for the tool bar, and check "Show Logo" option to display your logo on the left side of the tool bar (165\*35 is the recommended size of your logo image):

### 2. Tilt Angle Part

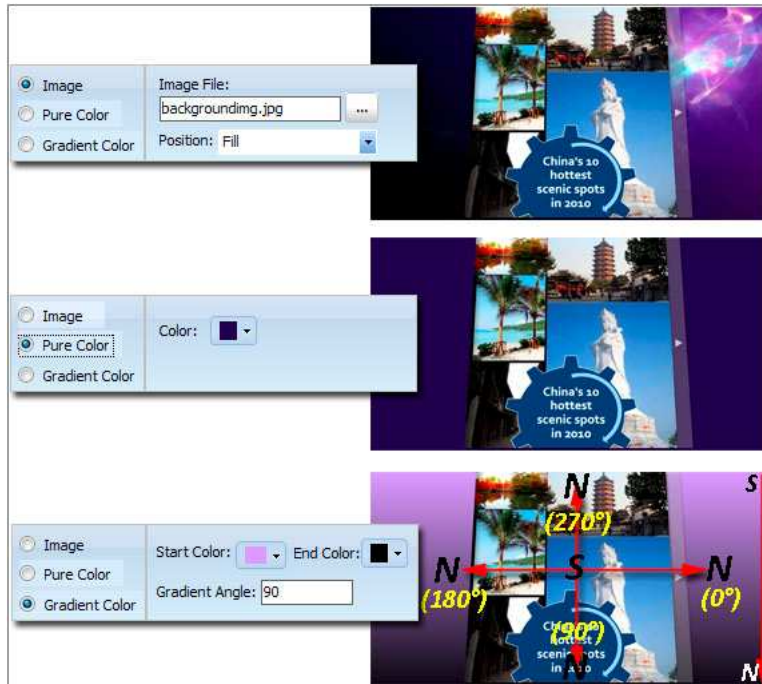

You can define default tilt angle for your created digital book, the value you can set to is number between 0 and 90. The readers can change tilt angle manually too by

clicking the "Tilt Angle" icon  or just wheel the mouse directly.

### 3. Background Config Part

If you don't want to use the background in pre-set templates, you can design your own background with Image or Color directly:

At last, click **Apply Change** icon to apply the settings.
